demandbridge®

Software and services for distributor operations.

DemandBridge builds software and services that help print and promo distributors manage the operational work behind their business.

WHO WE SERVE

Print Distributors

Simplify purchasing, inventory, fulfillment, billing, and customer management.

Promotional Products Distributors

Support branded merchandise programs, approvals, permissions, and customer ordering experiences.

Manufacturers

Support production-adjacent workflows, purchasing, inventory coordination, and customer ordering through connected platform capabilities.

HOW DEMANDBRIDGE SUPPORTS OPERATIONS

ERP

Manage distributor workflows across orders, purchasing, inventory, fulfillment, billing, customer management, and supplier relationships.

Commerce

Support company stores and controlled ordering programs with approved products, permissions, brand guardrails, and approval workflows.

DBPay

Extend ERP and Commerce workflows with payment-related functionality that supports customer orders and related transactions.

Services

Support implementation, training, integrations, and post-launch adoption so teams can get more value from DemandBridge products.
